

move forward

Bittel's 41 series trimline phones are great for use in bathrooms, and public spaces such as hallways, elevator lobbies and more.

Available in either single-line or two-line configurations, Bittel's 41 series also offers a convenient faceplate for the printing of branding, dialing instructions, and more. This added feature allows you to deploy 41 series phones in locations where basic hotel information needs to be displayed.

Our 41 series also comes with an optional membrane keypad that's highly resistant to moisture, making it the perfect choice where humidity or other moisture sources are an issue.

Built to the industry's highest quality control standards in our own ISO 9001 certified factories, Bittel 41 series phones deliver outstanding value and quality.
